Artist Statement

I am an oil painter whose works are inspired by the cobalt blue skies and cadmium green lawns of the Eastern End of Long Island and the hedge rows of South East Florida. Margot says..."I paint to capture a moment of sunlight upon oceans, lawns, marshes and architecture - leaving areas unfettered to allow - my viewers to complete the details in their minds and react based upon their own visual experiences." When not painting, I focused my career in a variety of creative businesses: as Managing Director of Production Companies, Web Development firms, COO of an Architectural firm and COO of a software Technology firm. I graduated from the University of Vermont with a double major in - Studio Art / Art history.

Since 2022, I am now a full time teacher and artist
